

The background features a white grid pattern with several stylized virus particles. Some are red with white spikes and a white star-like pattern on their surface, while others are solid blue with white dots. The Rudolf Group logo is positioned in the top right corner, and a Bluesign Approved logo is located in the middle right area.

**Textile protection finish based on the reaction mass of titanium dioxide and silver chloride.**

- Inhibits the multiplication of odour-causing bacteria.
- Fast-acting all in one solution.
- Non migrating, non leaching, high durable.

**New feature: protects the textile against virus attacks (non-aplicable in the USA!)**

EPA-registration, accepted according to Standard 100 by OEKO-TEX®. bluesign® approved.

**Textile Schutzausrüstung auf Basis Reaktions-masse von Titandioxid und Silberchlorid.**

- Verhindert die Vermehrung von geruchs-verursachenden Bakterien.
- All in One Lösung.
- Nicht migrierend, schnell wirksam.

**Das neue Feature: Schutz des Textils vor Virenbefall (nicht anwendbar in den USA!)**

EPA-Registrierung, erlaubt nach Standard 100 by OEKO-TEX®. bluesign® approved.

**Acabado de protección textil basado en la masa de reacción de dióxido de titanio y cloruro de plata.**

- Inhibe la multiplicación de bacterias que causan mal olor.
- Solución rápida todo en uno.
- No migrante, no lixivante, de alta durabilidad.

**Nueva característica: protege el textil contra ataques de virus (¡no aplicable en los EE. UU.!).**

Registro de la EPA, aceptado según la Norma 100 por OEKO-TEX®. Aprobado por bluesign®.
